

# BJ Dooley Technical Information Services

Brian J. Dooley

BJ Dooley Technical Information Services (BJDTIS) is a research, analyst, and consulting firm focusing upon the IT and telecommunications sectors. We are experienced in completing a wide range of projects, from market and technical research to case studies, brochures and manuals, for an international clientele.

## Areas of Expertise

- **Technology research**, including overviews of key business technologies, with in-depth analysis of significance, effectiveness, management issues, product usage, and market status;
- **Market research**, including market sizing, competitive analysis, feature comparison, product analysis and local market scoping through Web research and telephone interviews;
- **Consulting** on a diverse range of topic areas in business and Information Technology, including Open Source software, Enterprise Risk Management, and Cloud Computing;
- **White papers**, discussion papers, ROI studies, product usage analysis;
- **Magazine features**, press releases, and case histories;
- **User manuals**, technical manuals, brochures, and procedural manuals for hardware, software and consumer electronics products, and for business processes;
- **Online documents**, Help systems, Web pages, and multimedia.

Our clients include research companies such as Seybold, IDC, Gartner, Faulkner and PriceWaterhouse; consulting companies such as Cutter Consortium and Infotech; publishers, such as TAB books, Heritage
